	Quality Policy	ID-005	26-01-26	02	Marc Vizern

THINEX Rotimpres, as a manufacturer and supplier of **printed electronics services for various industries**, defines the following operating principles to ensure adherence to product specifications and compliance with customer requirements, applicable legislation and regulations, and the strategic lines of our strategic plan:

- **Quality Culture:** Achieving maximum customer satisfaction and loyalty by optimizing their experience and minimizing risks associated with our products through the implementation of a quality culture throughout the organization, fostering values, behaviours, and leadership geared towards continuous improvement.
- **Innovation:** Continuously improving our electronic printing services and internal processes based on annually established objectives. Transforming innovative ideas into smart, sustainable, and functional products ready for the market through a fully integrated value chain, from concept development to industrial production and marketing.
- **Professionalism:** We foster the training, awareness, and motivation of our team, as well as participation through teamwork and the contribution of suggestions.
- **Sustainability:** Leveraging additive manufacturing and printed electronics minimizes material waste and production costs, paving the way for smarter, more efficient, and sustainable devices that outperform conventional electronics. We guarantee printing with minimal materials on recyclable or biodegradable surfaces, combining performance with low consumption.
- **Compliance:** We ensure ethical behaviour in all our activities, comply with our clients' requirements, applicable legislation, and other subscribed requirements, promote transparency and the publication of reports, and preserve the confidentiality of the information and data we work with.
- **Safety:** We use continuous improvement in the prevention of injuries and health deterioration as the foundation of our work activities, including coordination with external collaborators, clients, and suppliers.

This policy is complemented by the quality objectives approved annually and is available to all our stakeholders through publication on our website.
